

## **Award of contract for Water Telemetry Repair & Replacement**

**Agenda Bill ID:** AB 2008-11-08

City Council

**AGENDA BILL 08-11-08**

**Subject:**

Resolution No. 08-46 – Award of Contract for Water Telemetry Repair & Replacement

**For Council:**

November 19, 2008

**Public Hearing:**

No

**Attachments:**

\*Memorandum from Public Works Director to City Manager

\*Resolution No. 08-46

**Initiated by:**

\*Public Works Department

**Budget Impact:**

\*\$77,927 (Included in adopted FY09 budget)

**Policy Questions for Council Consideration:**

Should the City award a water telemetry repair and replacement contract to S&B, Inc.?

**Summary:**

The water system's Supervisory Control and Data Acquisition (SCADA) PLC processor failed and had to be reinitialized. This is the centralized control for six reservoirs, five pump stations, and two altitude valves, and this is the first time the system failed which has expedited the need for replacement.

This agenda item would authorize the award of contract to S&B, Inc. as the system's telemetry integrator for equipment, supplies, and software.

Reviews of the conditions of the telemetry system indicate that the system was subject to failure, and the system has reached the end of its useful life, and immediate replacement is required.

**Recommended Action:**

Staff recommends award of the contract to S&B, Inc.
